

CLARA
EDTECH

Your Gateway to the World of Possibilities

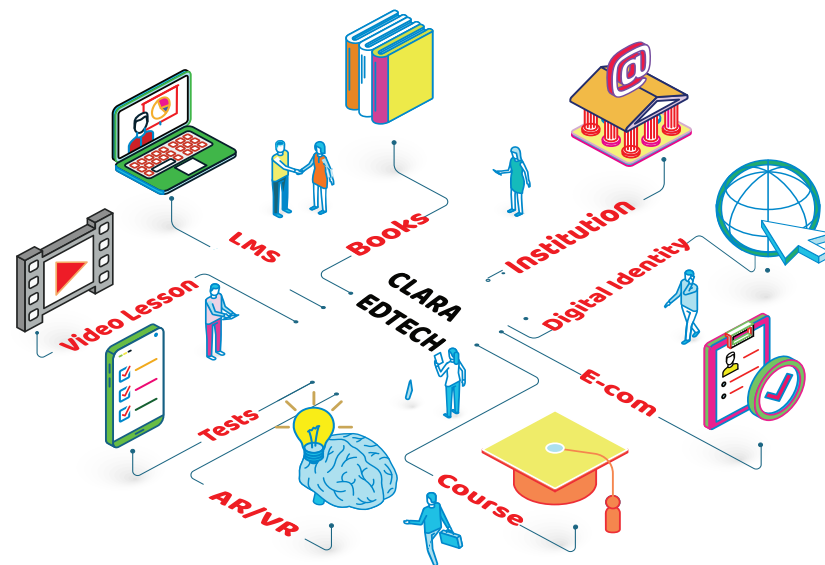

EdTech or Education Technology encompasses techniques from the simple use of computers to teach maths, inculcate reading skills among children and to simplify the process of submitting the Homeworks, Assignments, Projects etc. The learning tools will also include the use of gaming methods, the application of virtual reality technology and use of formal mobile learning applications.

About ClaraEdTech

ClaraEdTech represents a medium where Education and Learning goes hand in hand with new technology systems. It is a confluence of the old and the new, of the theory and praxis and of the new methodologies and pedagogies.

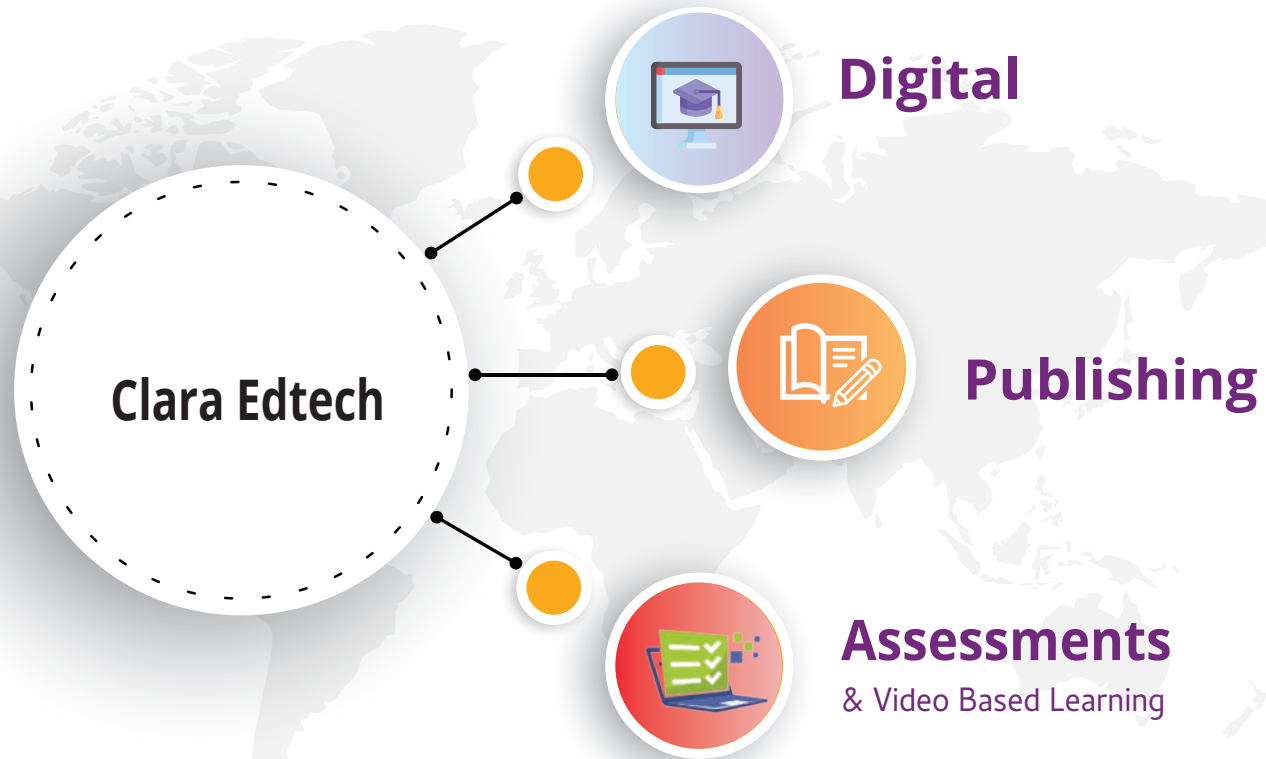

Mission

ClaraEdTech seeks to empower the young learners with self-learning skills that shall not only break free of the current top-down teaching practices (rote learning) but also engage the learner with the rapidly changing world order of digitalization and globalization.

Vision

Academic excellence is a way of life at Clara EdTech, exploration is the key to open the wider world and critical thinking is a method of translation of possibilities and potentialities.

PUBLISHING

ELT READERS

GUIDED READERS

Guided Readers are designed by ELT experts in the UK specifically for children whose first language is not English. A controlled syllabus progression for vocabulary and sentence structure ensures easy comprehension. Magic tales encourage children to learn to read English through a range of classic stories.

ISBN	Title	Level	Subject	Author

Given, α and β are the zeros of the polynomial $4x^2 + 3x + 7$, find the value of Value of $\alpha^2 + \beta^2$

$$\begin{aligned}
 &= (\alpha + \beta)^2 - 2\alpha\beta \\
 &= \left(-\frac{3}{4}\right)^2 - 2\left(\frac{7}{4}\right) \\
 &= \frac{9}{16} - \frac{14}{2} = \frac{9-112}{16} = -\frac{103}{16} \\
 \therefore \alpha^2 + \beta^2 &= -\frac{103}{16}
 \end{aligned}$$
